Special Notes

*IBAN is commonly used in Europe and is a combination of a two letter country code, a bank routing code and the beneficiary's account number. The length of the IBAN varies from country to country but always starts with a two letter country code. Commerce Bank requires the inclusion of an IBAN number on all European wires. If the IBAN number is not provided, there will be an additional \$12.50 fee for the wire.

*All wires to Mexico must have the CLABE number; the wire cannot be processed if the CLABE number is not provided.
